

Information regarding the COVID certificate requirement

Dear Guests,

The Swiss Federal Council has decided to require a COVID certificate for access to most indoor spaces including, but not limited to, restaurants, bars, museums, libraries, casinos, gyms, indoor pools and zoos. A valid COVID certificate* (PCR or antigen test, proof of vaccination or recovery) is mandatory to access the following facilities at the hotel:

Our Alex Lounge & Bar, our restaurant Alex Grill, the breakfast buffet, the SPA area, the gym, the squash court as well as the indoor tennis court. A overnight stay without access to the above areas does not require a COVID certificate.

*Guests from third countries (outside EU, EFTA or Schengen area) who do not possess a Swiss COVID Certificate or EU Digital COVID Certificate may convert their proof of vaccination into a Swiss COVID Certificate, provided that they received a vaccine which has been approved by Swissmedic or the EMA (Pfizer/Biontec, Moderne, Astrazeneca, Johnson & Johnson).

All other guests are required to present a negative PCR or antigen test issued in Switzerland in order to access the above areas. When expired (48 hours for antigen test, 72 hours for PCR test), the test must be repeated.

Please do not hesitate to contact us at any time if you have any questions or concerns. We are always available by phone or email.

With kind regards,

Christina Perren & René Hürlimann

Your hosts
